SICONUS™

SI JOINT FIXATION SYSTEM

LATERAL SACROILIAC JOINT FIXATION SYSTEM

- Threaded conical head design provides consistently high compression over greater degrees of rotation.
- Sizes Available:
 - \varnothing 7mm self-drilling screws in lengths ranging from 30mm to 70mm in 5mm increments
 - \varnothing 11mm self-tapping screws in lengths ranging from 35mm to 65mm in 5mm increments
- Fenestration in the \varnothing 11mm Screw allows for autograft packing.
